

**SECLORE**

# Building a secure path to collaborate

**Nagarro and Seclore's joint solution for a comprehensive, smooth, and secure collaboration for organizations with external partners.**

Traditional file-sharing services and email are not designed to protect sensitive information. They lack the necessary controls and security features to ensure data protection. This can lead to data breaches, compliance violations, and even financial losses. .

The Nagarro Seclore solution offers a secure and compliant way to share and collaborate on sensitive documents while maintaining complete control over your data. It allows you to protect sensitive data with end-to-end security, including encryption, access controls, and activity tracking. The joint solution offers businesses a safe, effective, and compliant collaboration, bridging the divide between organizations and their external partners for more efficient and secure business operations.

## Some of the key features of the Nagarro Seclore solution include

Intuitive dashboard to manage sensitive data and analyze usage data in real time

Watermarking the sensitive documents

Custom viewer with pagination to prevent unauthorized downloads or printing

Protection of downloaded files with password protection and encryptions

Access controls based on user profiles, groups, or IP addresses

Elevated user experience on the platform for both senders and recipients of sensitive data

# About Nagarro

In a changing and evolving world, challenges are ever more unique and complex.
