- Dedicated Center for Technical Excellence (CTE) and Architecture Group for evaluating new technologies

Our Approach

- SEI CMMI certified, strict conformance to ISO quality processes
- Flexible, hybrid onsite/offshore software development models
- Commitment to Agile software development methodologies
- Adherence to strict Indian IPR laws and legally binding international conventions
- Knowledge management system in order to transfer knowledge and share best practices with clients and partners
- Projistics™, our proprietary project management tool provided free to all clients

Customer Quotes

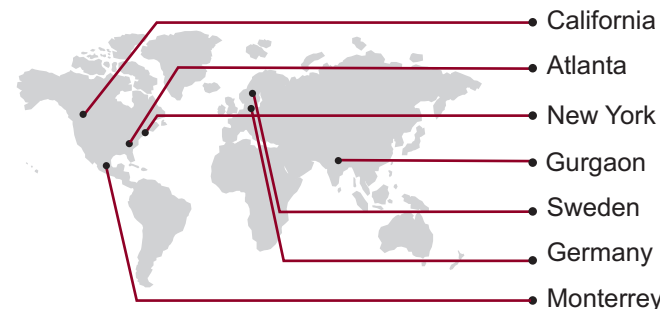

“We chose Nagarro because we needed a strategic partner with world-class technical skills to work alongside our growing development team and serve as a model for best practices”

Jonathan Ross, CEO of CSI Software

“Nagarro’s implementation of the optimization tool for our plant has resulted in huge process benefits and a major reduction in costs. The project has been a great success. They provided us with a really good quality product”

**Rob Ballet, Manager, Roasting Operation
Umicore, Belgium**
