Accelerate your cloud migration with Agentic AI

Traditional cloud migrations are slow, costly, and risky. Assessments can take months, dependencies are often missed, cost estimates are unreliable, and teams remain uncertain. **Nagarro's agent-based approach** automates critical steps, accelerating migration with precision.

In just **2 days**, we help you transform 6 months of discovery into a confident **90-day action plan** that uncovers high-impact opportunities and drives real business value.

Our 2-day agent-based migration guidance workshop

Readiness scorecard

People, processes, data and platform assessment to spot gaps, key dependencies and quick wins

Prioritized workload heatmap

Value × Feasibility matrix with 7R mapping and migration options.

Sample migration scenarios

2-3 actionable scenarios with patterns, timelines, risks, and cost insights

Live agent demos

Watch intelligent agents uncover your landscape — mapping, securing, optimizing, and analyzing in real time

Phased 90-Day migration roadmap

Plan with landing zone design, governance, identity/network architecture, and Day-2 ops hooks

Wave-1 entry criteria

Clear "migration-ready" definition with technical prerequisites, governance requirements, and success criteria.

Workshop agenda

Day	Key activities	Outcomes
Day 1 **(4x90 min blocks)**	**Assess and analyze** • Define success criteria, key constraints, and compliance needs. • Analyze infrastructure, applications, data, identity, network, and costs. • Assess recovery targets, disaster recovery setup, data sovereignty, and audit needs. • Identify agent use across migration journey with live demos on anonymized data	• Aligned vision and success criteria • Clear understanding of current state and risks • Agentic opportunities mapped to your landscape
Day 2 **(4x90 min blocks)**	**Strategy and roadmap design** • Prioritize and shortlist workloads for migration waves. • Simulate 2–3 migration options with effort, timeline, and cost. • Design landing zone, network, security, and Day-2 ops hooks • Define wave-1 scope, key tasks, and governance plan.	• Clear technical and operational plan • Actionable 90-day migration roadmap

Customizable for AWS, Azure, or GCP environments

Onsite or virtual delivery. Final deliverables shared within 5 business days

No PII required — we operate under your NDA
