

PRODUCT DESIGN

- 1. Anomaly analysis
- 2. Competitive analysis
- 3. Design drawing management
- 4. Field environment analysis
- 5. Field environment testing
- 6. Product as a Service
- 7. Product copyrights
- 8. Product development
- 9. Product digital twin
- 10. Product features management
- 11. Product material management
- 12. Raw material analysis
- 13. User behaviour analysis
- And many more

INBOUND LOGISTICS

- 1. Bidding management
- 2. Expiration date management
- 3. Forecasting
- 4. Incoming goods management
- 5. Inventory optimization
- 6. Inventory tracking
- 7. Part kitting
- 8. Picking operations
- 9. Procurement automation
- 10. Procurement transparency
- 11. Put away operations
- 12. Quotation management
- 13. Real time location system
- 14. Track & trace
- 15. Warehouse training
- And many more

ASSEMBLY & MANUFACTURING

- 1. Advanced scheduling
- 2. Data management
- 3. Design drawing mapping
- 4. Energy management
- 5. Labelling
- 6. Master production scheduling
- 7. Monitoring asset's health
- 8. Non-conformance management
- 9. Order prioritization
- 10. Performance management
- 11. Process optimisation
- 12. Product testing
- 13. Production digital twin
- 14. Production planning
- 15. Production workflow modelling
- 16. Query & guide management
- 17. Shop floor monitoring
- 18. Tools tracking
- 19. Worker safety
- 20. Workers training
- And many more

MAINTAINANCE & REPAIR

- 1. Alerts & notification
- 2. Automatic WO creation & assignment
- 3. Guided repair
- 4. Maintenance management
- 5. Operator training
- 6. Predictive maintenance
- 7. Quality checks
- 8. Real time actuation
- 9. Remote repair
- 10. Service part management
- 11. Spare part management
- 12. Tools management
- 13. Worker safety
- And many more

MARKETING

- 1. Comparative analysis
- 2. Competitor analysis
- 3. Customer opinion mining
- 4. Digital product catalogue
- 5. Digital store
- 6. E-catalogue
- 7. E-commerce platform development
- 8. Information management
- 9. Lead management
- 10. Marketing analytics
- 11. Marketing notifications
- 12. Marketing training
- 13. Media planning
- 14. Media spend analysis
- 15. Personalised product

- 17. Product as a Service
- 18. Product demonstration
- 19. Product discovery
- 20. Product marketing system
- 21. Product recommendation
- And many more

OUTBOUND LOGISTICS

- 1. Delivery management
- 2. Dispatched goods management
- 3. Fleet mapping
- 4. Fleet parking management
- 5. Guided movement inside a warehouse
- 6. Lot tracking
- 7. Material management
- 8. Optimize cargo packing in containers
- 9. Pallets management
- 10. Product packing
- 11. Product replacement management
- 12. Product shelf life management
- 13. Route optimization for delivery
- 14. Shared storage management
- 15. Shipment management
- 16. Warehouse management
- And many more

INSPECTION & QUALITY

- 1. Alerts and notification
- 2. Asset inspection
- 3. Component compliance
- 4. Defect detection
- 5. Guided inspection
- 6. Inspection training
- 7. Product configuration verification
- 8. Product information management
- 9. Product quality matrix
- 10. Quality management
- 11. Quality of raw material
- 12. Quality reporting
- 13. Quality training
- 14. Remote inspection
- 15. Scheduled quality analysis
- 16. Shop floor inspection
- And many more

SMARTER SERVICES

SMARTER SERVICES
