

SAP add-on Confirmation of Arrival (Quick Fixes)

A lot of the work in finance departments and logistics consists of routine tasks. By using our smart add-ons you can relieve your employees of such activities, thus leaving more time for core tasks. With our fully integrated SAP add-on, the outgoing confirmation of arrival is created as an automatic message at the time of posting the goods issue. The clever integration results in greater efficiency by reducing manual actions, thus saving precious time and costs. Technically our SAP confirmation of arrival add-on is delivered in our own customer namespace. It is thus fully release-capable and is already adapted to SAP S/4HANA.

The solution

Sometimes the SAP Standard does not have what you need. That's where the add-on for confirmation of arrival comes in. With this SAP add-on you can generate outgoing confirmations of arrival automatically, thereby satisfying the prerequisites for creation of a VAT-free invoice under Section 17a of the VAT Directive (UStDV) and the Quick Fixes of 1/01/2020 of the European Commission. This increases employee productivity – particularly for the creation of this critical mandatory document – and reduces the workload noticeably.

Confirmation of arrival

Bestätigung über das Gelangen des Gegenstands einer innergemeinschaftlichen Lieferung in einen anderen EU-Mitgliedsstaat

Lieferndes Unternehmen: Nagarro Verkauf DE Musterstr. 1 DE-81345 Musterstadt

Warenempfänger: EDEKA Zentrale Breslauer Str. 3 DE-81313 Siegenhof
