

SAP Test Management

Effective test management is the key to a successful SAP implementation.

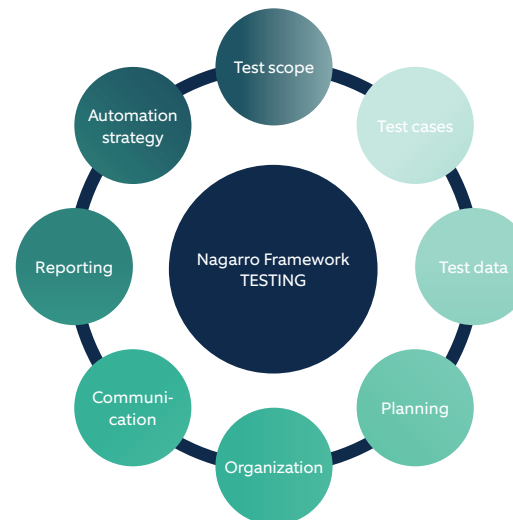

Thinking Breakthroughs

Effective test management is the cornerstone of a successful SAP implementation. With thorough test planning, execution, and monitoring, we not only ensure smooth processes but also the flawlessness and performance of your SAP solution.

We leverage our best practices to address your customer-specific requirements and create the ideal framework for successful testing.

The following requirements ...

- are the success factors in every test phase
- provide the prerequisites for the test procedure according to the classic waterfall method and in the agile environment
- are independent of the solutions used
- are independent of the software to be tested
- include the approaches according to ISTQB® (“International Software Testing Qualifications Board”)
- are based on our experience from numerous test projects (> 100)!

Our offerings

Test management

- Creation of a test strategy tailored to the customer and of individual concepts for each individual test phase
- Basis are the empirical values from many projects and best practice methods

Managed Testing Services

- Delivery of support services, Quality Gates, Test Readiness Reports, templates and execution of tests (design and execution)
- Provision of process knowledge for test execution and error handling

Load and Performance Testing

- Analysis of your critical performance areas
- Recommendation and implementation of the tools.
- Creation and execution of load and performance scripts
- Analysis of results and recommendations

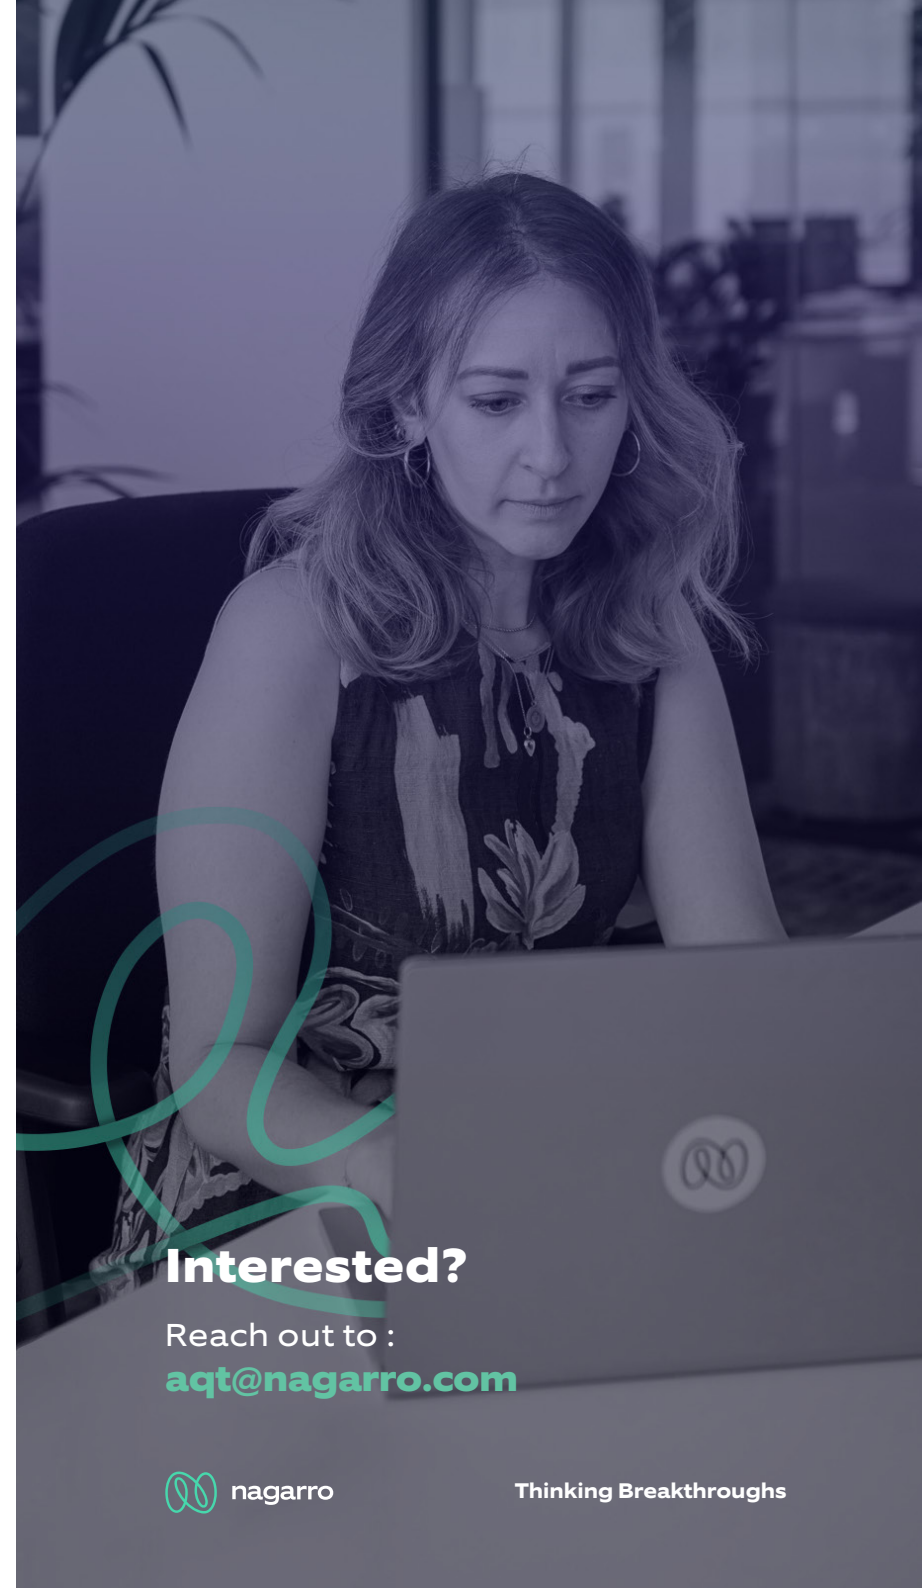

Test automation

- Analysis of the system and application landscape
- Selection of test cases to be the test cases
- Design and implementation of automation frameworks and scripting of the test cases to be the test cases

What's special about Nagarro's offerings?

- **Holistic approach:** Our proven approach covers all important aspects, from scope definition to test execution and reporting.
- **Tailored strategies:** We co-develop an individual test approach with you, that is precisely tailored to the specific requirements of your organization and situation.
- **Strong partnerships:** As partners with industry leaders, we can provide you with innovative solutions.
- **Diverse expertise:** From test management to special topics in the test environment - we master all aspects.
- With a track record in Testing Services since 2001 and a team of 1000+ consultants currently serving 100+ clients, we offer unparalleled expertise.
- As a partner of SAP, Tricentis, and other international testing tool providers, we are well positioned to provide you with innovative solutions for your test management needs.
