

Aeroflo: Comprehensive Agentic AI solution for airlines

A multi-agent AI solution built by leveraging our Fluidic Intelligence approach and AI armoury

What Aeroflo does

-  Helps navigate the complexities across airline verticals, from operations to customer experience, planning, and communications.
-  Enhances efficiency in airport processes, OCC, MRO, and crew management.
-  Drives revenue growth by optimising fares, inventory, and targeted personalised offers.

Application areas

-  **Operations:** Operations Control Centre (OCC) | Airport Operations | Maintenance, Repair, and Overhaul (MRO) | Customer Support Centre
-  **Sales & Commercial:** Revenue Management | E-commerce Platforms

Aeroflo in action

Let's take a scenario where Aeroflo is your digital flight controller, seamlessly orchestrating every turnaround activity to ensure your flight departs on time, every time.

Ground Staff Agent

Fills gaps due to callouts, shift changes, or compliance constraints

Crew Agent

Proactively keeps check on legality and identifies if standby is needed

Communication Agent

Activates a collaborative communication channel for all stakeholders

Maintenance Agent

Troubleshoots the defect, creates WO, and helps AME resolve the issue quickly

Gate Optimizer Agent

Generates context, checks availability and ensures right and sufficient staff is allocated for each event

Connection Agent

Proactively rebooks short connecting passengers to new flights

Slot Agent

Facilitates departure re-slot applications

Start with Aeroflo

- Step 1** Scan the QR code on the right.
- Step 2** Book a complimentary 6 week Agentic AI Jumpstart program.
- Step 3** Use the ready-to-implement MVP after the program.
