#WomenOfNagarro

What do you appreciate most about Nagarro?

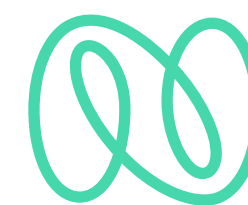

What I appreciate most about Nagarro is its commitment to Working from Anywhere. It gives people flexible working and work-life balance, expanding our talent base and the opportunity to tap resources outside my region.

If you could break one stereotype, what would it be?

Cultural stereotype.
They are mostly based on generalizations and assumptions and often lead to misrepresentations and unfair judgment.

What is the one quality that has helped you along your career path?

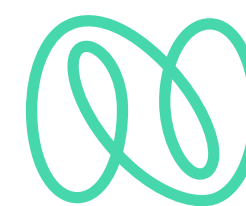

Practicing critical thinking and problem-solving really helped my career. I feel extremely lucky that my job allows me to make decisions and gives me the freedom to pursue ideas.

Who is your personal role model?

Milagros Nepomuceno has a deep influence on me professionally. She's "Mother Miles" to us in the workplace. I admire her nurturing leadership style while empowering us to make hard decisions. She's very authentic and grounded. I aspire to be like her when I grow up 😊.
