Hi from Nagarro

Q1 2026

#1 What’s new?

#2 Success stories

#3 Thought leadership

#4 Recent launches

#5 Life at Nagarro

Hi from a Nagarrian

Dear reader,

This quarter saw a clear shift in how enterprises are moving from agentic AI exploration to the evaluation and adoption of enterprise-class agentic orchestration frameworks.

Industries are no longer asking whether AI can create value, but how quickly it can be embedded into core operations and decision systems without disrupting business. Some of this quarter's success stories and recent launches demonstrate how we deliver measurable business uplift for clients through our Fluidic Intelligence framework.

We are currently in an exciting phase where we can use AI and other technologies to deliver transformative results for clients. I hope you enjoy reading our updates in this edition.

Happy reading!

Manas Human | Co-founder of Nagarro

What’s new?

Databricks Brickbuilder **Gold Partner milestone**

Nagarro has achieved Databricks Gold Partner status, reaffirming the value of our large-scale data, analytics, and AI solutions for enterprises worldwide. This milestone reflects our ongoing investment in building deep expertise and robust capabilities on the Databricks platform.

Success stories

Schneider Electric's Nagarro experience

Schneider Electric shares how Nagarro partnered from vision to execution to deliver a seamless, personalized B2C digital experience – bringing immersive product journeys, customer-centric design, and strong collaboration to life.

go.nagarro.com/schneider-video

Scaling new highs at **Dublin Airport Authority (daa)**

We partnered with daa to build a future-ready digital marketplace that unifies passenger services into a seamless booking experience. This has improved customer journeys and opened new revenue opportunities to ensure continued digital growth.

go.nagarro.com/daa-success

Lighting up **success with Salesforce**

We delivered a Salesforce-led digital transformation for a lighting solutions leader, streamlining their dealer onboarding, strengthening marketing intelligence, and integrating multiple systems to improve visibility, automation, and scalability.

Thought leadership

From **AI ambition** to **AI at scale**

At the Gartner Data and Analytics Summit, Nagarro's leaders shared how Fluidic Intelligence helps enterprises unlock AI value by reducing friction, building on existing systems, and enabling intelligence to flow across teams and operations.

go.nagarro.com/fi-perspectives

A look at AI as a **shared public capability**

Our i-suite blog looks at AI as a shared public capability, drawing lessons from France and the Nordics. It examines policy, access, and collective responsibility in shaping inclusive, scalable AI adoption.

go.nagarro.com/ai-public

A lesson on creating **successful products**

This episode from our Product Leaders Series offers practical guidance on building successful products. It covers product discovery, customer validation, and aligning teams around outcomes that drive real value.

go.nagarro.com/pl-series

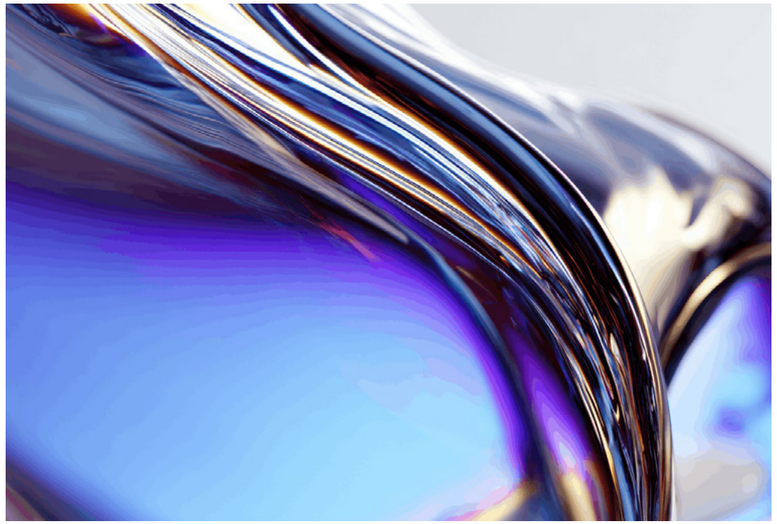

Making change **smooth and seamless**

Why do so many change initiatives fall short? This Nagarro white paper shows how a human-centric, structured approach helps leaders drive adoption, manage resistance, and sustain new ways of working by turning change into a lasting business advantage.

Recent launches

A **unified enterprise platform** for scaling AI with confidence

We have launched a new platform that unifies enterprise data engineering, agentic solutions, business process management, and analytics into a single, governed orchestration layer. It helps clients align fragmented AI initiatives, making enterprises more responsive and resilient.

go.nagarro.com/unified-platform

ATLAS: Redefining **cloud modernization** with agentic AI

Nagarro has launched ATLAS as an agentic AI-powered service for accelerated cloud delivery. It boosts productivity, reduces costs and time-to-market, while maintaining strong guardrails for risk, quality, and governance.

go.nagarro.com/atlas-ai

Unlocking maritime intelligence with **SAIL (Simplyfing AI for Logistics)**

Say hello to SAIL, our maritime intelligence platform designed to transform raw vessel data into clear, actionable insights. The platform enables data-driven visibility and decision-making across maritime operations.

go.nagarro.com/sail-tl

Life at Nagarro

Gold for a **culture of trust**

Nagarro won Gold at the Economic Times Human Capital Awards 2026 for Excellence in Cultivating a Culture of Trust and High Performance. It's an honor that reflects our shared commitment to trust, meaningful performance, and growing together.

go.nagarro.com/et-awards

Women in Tech ethics session

At a Women in Tech session on ethical and inclusive AI, our women leaders spoke about representation, responsible innovation, and the importance of building AI with trust, transparency, and giving people the centerstage.

go.nagarro.com/wit-session

A **win-win night** at Mannheim

Nagarrians and clients came together in Mannheim to cheer Rhein-Neckar Löwen and mark the launch of the new RNL app that celebrates collaboration, teamwork, and a proud milestone brought to life, with Nagarro.

go.nagarro.com/rnl-app

Career Discovery Week in New York

During Career Discovery Week in New York, we welcomed high-school students to explore technology careers through panels, hands-on AI labs, and real-world insights to build their potential, confidence, and industry exposure.
