

# .Net Fullstack

## What are your key responsibilities?

- › Use established technologies and guidelines including but not limited to Angular 6, ASP.NET MVC, SQL Server, Mongo and C#
- › Design, code and test software applications
- › Enhance existing systems by analyzing business objectives, preparing an action plan and identifying areas for modification and improvement
- › Maintain existing software systems by identifying and correcting software defects
- › Investigate and stay up-to-date with new technologies
- › Have the ability to work with diverse, integrated, deliverable-driven teams to accomplish the larger mission.
- › Creating, understanding and validating WBS and estimated effort for given module/task, and being able to justify it
- › Addressing issues promptly, responding positively to setbacks and challenges with a mindset of continuous improvement
- › Giving constructive feedback to the team members and setting clear expectations.
- › Helping the team in troubleshooting and resolving of complex bugs
- › Coming up with solutions to any issue that is raised during code/design review and being able to justify the decision taken
- › Carrying out POCs to make sure that suggested design/technologies meet the requirements

## Must have skills

- › 5+ years as a software development experience in .NET Platform (.NET, .NET Core, REST Services) using C# language
- › Extensive experience with Angular
- › Experience with service-oriented, multi-tier Architecture and implementation of scalable, high performing .NET applications
- › Very good knowledge of OOP
- › Good knowledge of REST Web API and semantic web concepts
- › Knowledge or experience with micro-services is an advantage.
- › Knowledge or experience with Big Data (Mongo, Hadoop) is an advantage.
- › Experience with version control (TFS, GIT)
- › Fundamental knowledge of design patterns
- › Experience in communicating effectively with users, other technical teams, and management to collect requirements, describe software product features, and technical designs
- › Passionate about building great solutions
- › Mentoring the team members to meet the client's needs and holding them accountable for high standards of delivery

**nagarro**

Nagarro drives technology-led business breakthroughs for industry leaders and challengers. When companies want to move fast and make things, they turn to us. We solve some of the most complex business challenges leveraging cutting-edge technology with agility and innovation. We call this approach "Thinking Breakthroughs".

Today, we are more than 6,000 experts across 21 countries. Together we form Nagarro, the global services division of Munich-based Allgeier SE.
