

Stay CALM and check it!

SAP Cloud ALM Readiness Check –
Your Workshop for a Successful SAP S/4HANA Project

Target group

SAP S/4HANA project managers who want to optimally prepare the use of SAP Cloud ALM (CALM).

What we offer

A half-day to full-day workshop that prepares you intensively for using SAP Cloud ALM within your S/4HANA project. We follow the proven SAP Activate methodology to ensure a structured and goal-oriented preparation.

Workshop Contents

- Introduction to SAP Cloud ALM and its added value for your project
- Analysis of project requirements and CALM integration
- Setup and configuration according to the SAP Activate methodology
- Best practices and tips for successful usage
- Open discussion and individual questions

Why Nagarro?

Independent experts: We are not SAP salespeople but provide neutral and objective advice.

Agile and innovative working style tailored to your needs.

Deep technical expertise and many years of experience in SAP projects.

Global presence with local understanding.

Sounds exciting? Let's talk!
