

Free-of-charge offer

Building a future-ready airline based on API management

Thinking Breakthroughs

How to get started with your API journey

To pave the way for API-enabled transformation, Nagarro suggests to run a free-of-charge API strategy maturity assessment

Structured Interview (2 hours)

API Strategy Maturity Assessment

Deliverables

- API strategy maturity status quo
- Potential areas for improvement

Description

- Setting the stage
- Structured dialogue on the basis of the questionnaire
- Instant derivation of assessment findings, debrief as workshop prep

Stakeholders

- Head of IT
- Chief Architect
- API Champions, Evangelists

API Strategy Maturity Framework						
Free-of-charge offer						
Maturity ↑	5. Distinctive	Partner-integrations' Data Standardization	API Centric SaaS	Quantum ML IoT / Smart Dust APIs NoOps Affective Computing	Digital Twins – Second Look Ambient Interfaces	Value Creation
	4. Inventive	PI Service Level Objectives (SLOs) API Telemetry Automated API Access Management	Service Mesh Serverless Architecture Data Rivers API Framework	Business Moments Compliance Aware APIs Close Loop Live Analytics API Ratings	Self-Integrating APIs Self-Governing APIs Democratized Trust	Business Significant
	2. Logistical	API Developer Portal, API Governance, API Service Level Agreements (SLAs), API Maturity Measurement	API Lifecycle Management API Monitoring API IAM API Gateway	API Licensing Models Micro-Gateways API Security Event Driven APIs API First	82B Integration Portals API Discovery Continuous Delivery API Sandbox	Technical Enablement
	1. Technical	API Dev Tools Auto Generated Documentation API Dev SDKs Standard Stack and Styles	RESTful APIs Service Oriented Architecture (SOA) API Instrumentation	Mobile Experience API Re-use Backward Compatibility	Micro-services API DX API Versioning	
		Enablers	Foundation	Extenders	Force Multipliers
