

Unleashing the next level of quality assurance

Get a 360° overview of a robust, efficient quality assurance process and a future-proof QA team that is crucial for every modern business.

5-day workshop

Nagarro's 360-degree approach reveals the current level of your QA organization, and recommends ways to level-up to a future-proof QA organization tailored to your specific needs.

The highly interactive 5-day workshop starts with insights gained through a questionnaire, stakeholders' meeting and a final report that provides recommendations and roadmap for setting up a pragmatic test organization. This approach and framework will help you establish the next-level of future-proof quality assurance.

Key Questions

Why does production still have many defects after spending a lot of money on testing?

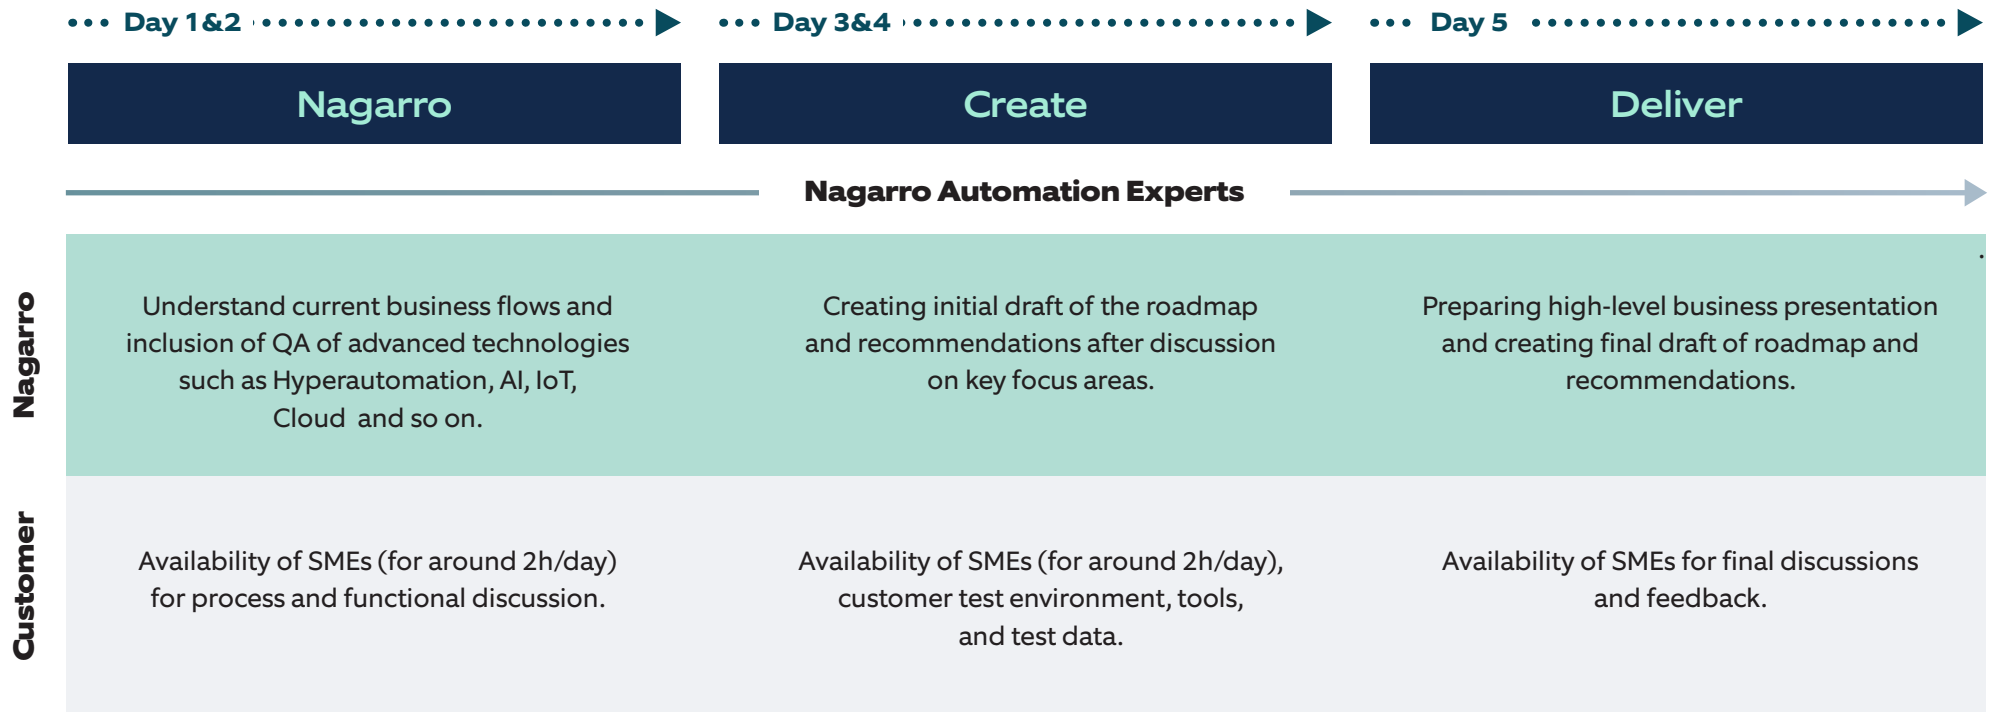

Am I thinking automation too traditional? How can Hyper-automation help in testing?

Do you want cross-functional teams for optimal collaboration and maximum throughput?

Workshop concept

Workshop outcome

- Details of current situation
- Areas of improvements in QA organization
- A detailed roadmap to create world-class QA organization
- Recommended test organization set up, and detailed roadmap to create next level of QA organization
