

DevOps Maturity Assessment

Let's jointly identify the current state of your DevOps journey and the potential for improvement!

5-day workshop

Have you begun to (or want to) benefit from DevOps? Then this DevOps Maturity Assessment is all you need. This assessment identifies your current state of maturity and challenges spanning development, deployment, and sustenance using analysis gained through questionnaire and interviews conducted with multiple stakeholders.

This is our overall approach to implement DevOps for any customer. It mainly focuses on the first phase of the approach.

At the end of the workshop, you will receive a DevOps Maturity Assessment Report. It will have recommendations on the optimal DevOps state for your organization.

Key Challenges

Do you struggle with a lot of time and money overhead?

Is your time-to-market too high?

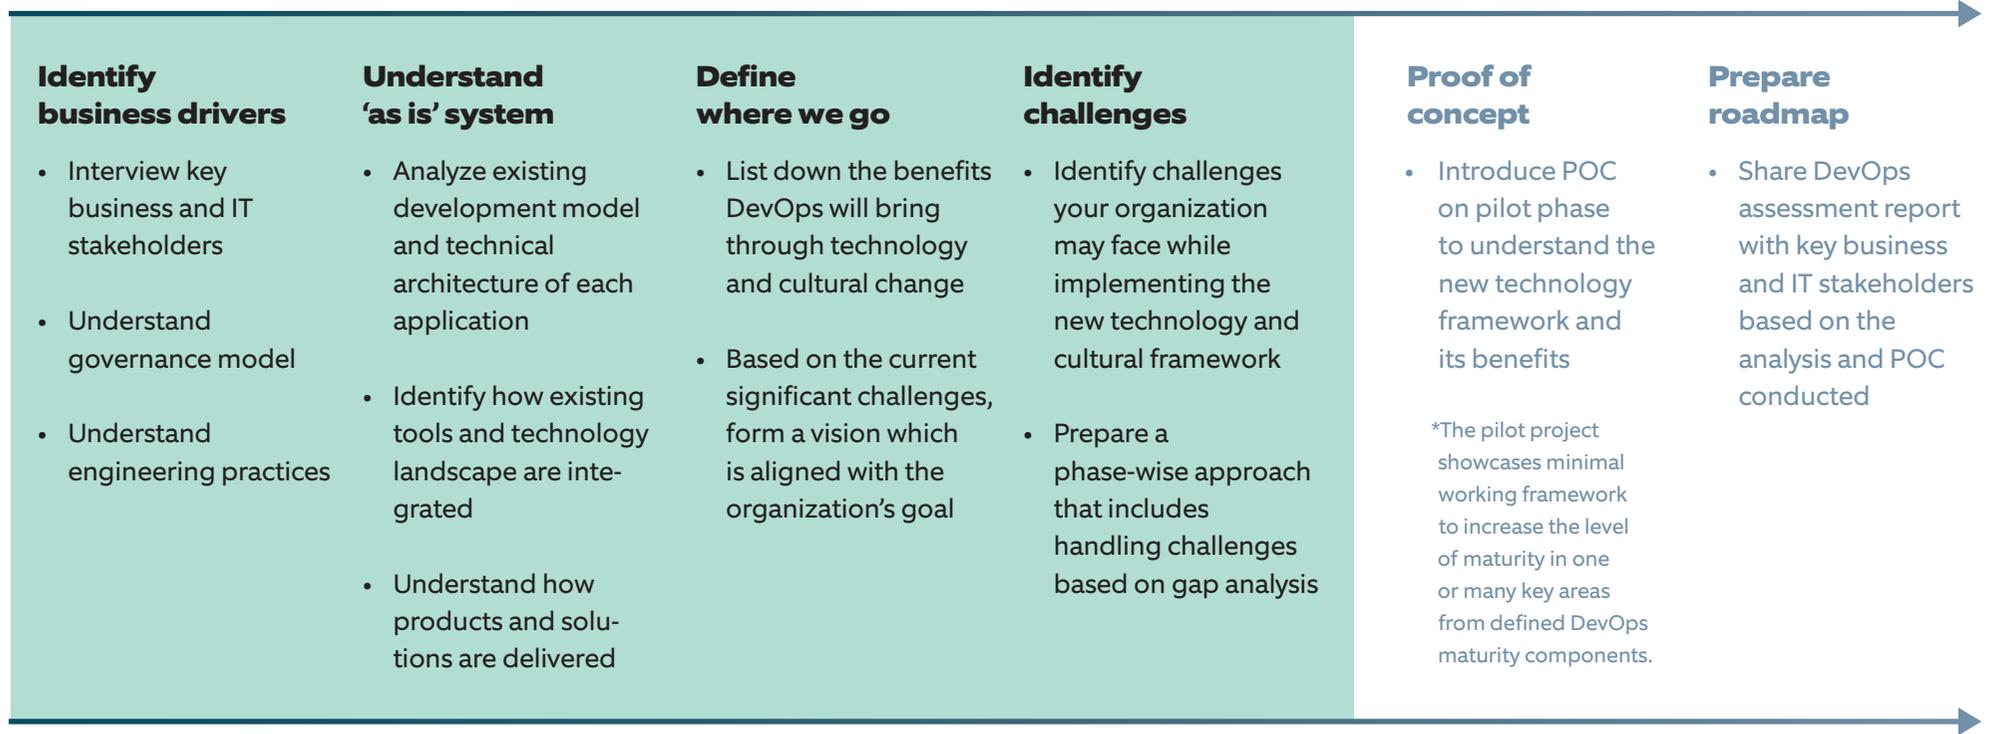

Do you want cross-functional teams for optimal collaboration and maximum throughput?

Workshop Concept

◀ **5-day Workshop: DevOps Maturity Assessment** ▶ ▶ **Next step: 5-day Pilot*** ▶

Workshop Outcome

In case supported PoC is required then timeline may differ based on technology stack. If the customer would like to start with implementation after the first phase itself, we will be happy to conduct just a few more discussions and prepare an implementation plan.

- Understanding on current challenges grouped into themes
- Identifying the pilot project
- Current DevOps maturity level-based on best practices
- Quick wins
- Benefits to be received from transformation
- Recommendations on the optimal DevOps state and a high-level transformation roadmap

Why Nagarro

Tailored frameworks to speed up time-to-market
