nagarro

Unlock business value with Agentic AI in 6 weeks

AI agents represent the next leap in enterprise automation, transforming how businesses operate, serve customers, and make decisions. With **Nagarro's Agentic AI jumpstart program**, you can rapidly engineer AI agents, uncover high-impact opportunities, and drive real business value — all while ensuring seamless and scalable adoption.

What you get from our 6-week Agentic AI jumpstart program

C-Suite inspiration sessions

Immersive, executive-level sessions to demystify Agentic AI

Rapid use-case discovery

Thinking Breakthroughs™ workshops to spot high-value agent opportunities

2 high-impact agents, tailor-made

We deliver 2 agents aligned to your most promising use-cases — strategic assets that demonstrate real value

Access to Nagarro's Agentic AI accelerators

NIA — Nagarro's Intelligent Agent Platform — with reusable components and reference architectures

Roadmap for scaled adoption

Move from prototype to production with confidence and scalability

Book a complimentary workshop with us!

6 weeks. One bold step into Agentic AI.

Week	Key activities	Outcomes
Week 1	**C-suite inspiration and opportunity framing** • Executive sessions on Agentic AI trends • Cross-functional Thinking Breakthroughs™ workshops • Opportunity mapping and prioritization	Leadership alignment and prioritized focus areas for Agentic AI
Week 2	**Use-case detailing and readiness** • Gathering inputs from functional teams • Use-case refinement and UX scoping • Data, feasibility, and dependency mapping	Clarity on what to prototype and why—with groundwork ready to build
Week 3 & 4	**Rapid engineering and proof of value** • Leverage our Agentic AI accelerator (NIA) to co-create agents • Iterative testing with stakeholders	Working solutions demonstrating core capability and contextual fit
Week 5	**Value realization and ROI mapping** • Business impact modeling • Final stakeholder demo and feedback incorporation • Risk and adoption challenge assessment • Identification of scale levers	Quantified business case and executive-ready summary
Week 6	**Roadmap and executive debrief** • Enterprise readiness assessment • Technical and operational playbook • Custom roadmap for production scale AI agents	Clear path for scalable and long-term Agentic AI adoption

Powered by Nagarro's Agentic AI toolkit

NIA—Nagarro Intelligent Agent platform

Designed to meet enterprise needs for rapidly scaling Agentic AI solutions

Thinking Breakthroughs™ framework

Foster a culture of collaborative innovation aimed at disruption and value maximization

Deep, cross-functional expertise

Blend of design thinking, AI engineering, and enterprise-architecture expertise
