Workshop
Agile Transformation

The Agile Transformation Workshop helps establish the vision and bring out the tooling, governance, operations model, and training needs required to transform your organization to a truly agile way of working.

Key Challenges

Do your customers and employees have a low level of engagement?

Is your current software development process dysfunctional?

Do you have large work-in-progress and request backlog queues?

Nagarro's Agile Transformation Workshop can fix all these challenges for you.

Workshop Schedule

Pre-workshop	2-Day Workshop	Post-workshop
• Discuss the transformation goals and challenges with key stakeholders • Prepare a preliminary statement	• **Identify the scope** • **Establish the vision** • **Perform GAP Analysis** • **Conduct Readiness assessment**	• Define the unanimously agreed vision for the transformation's goals • Provide a recommendation on the approach towards transformation, which would serve as the basis for the planning phase • Share guidance on tools, governance, operational model, and training requirements

Workshop Outcome

- **Current State Assessment Report,** an overview of your current enterprise agility level and possible opportunities for improvement to move up the *STEPS*.
- **The vision** for the transformation, with everybody on the same page on what the transformation should achieve.
- **Recommended approach** towards the transformation including guidance on tools, governance, operational model and training needs.
